A sexy adventure!By Carly Rose (Carly's Book Reviews)I'm a huge fan of Draven's Firehouse Six series and I finished Scent of a Wolf in one sitting. Jase and Merek share a dream... literally. While their dream encounters are super sexy, it's the emotional relationship that develops after they meet that really drew me in. An instant connection flares when they first meet, but they quickly learn there are many things about each other they have yet to discover. Finding your fated mate should be the most joyful and intimate moment in a wolf's life. Unfortunately, it's not all hearts and roses for these two because a danger from the past is standing in their way. Scent of a Wolf is the perfect combination of drama, romance, sensuality and suspense. Book two, here I come!0 of 0 people found the following review helpful. Great new authorBy My Book FixationDraven St. James is a new author for me. I am so glad that I gave this book a chance because I will be reading the second in the series and reading some more of his other books as well. The plot kept me interested at all times I never skipped through the book which I sometimes do. Merek was a great character loving and patient, Jace was alright I didn't really like him nearly as much as I liked Merek. Even though I didn't like Jace it didn't take away from the relationship and the way it progressed. Plus it was nice and steamy. I can't wait to read the next in the series.

Jace Shaw is one of the few survivors of an extraordinary, rare wolf pack. He spends his days on the run and his nights in another world with a man whose hands only ever known in his dreams. To sleep is to feel this man's hands on his body, the heat of his breath on Jace's skin, and get lost in his wicked whispered words. But when the sun rises reality crashes in: the evil that destroyed Jace's birth pack hunts his kind down in search of a way to control their power. Merek Wahya is an alpha dealing with all the issues of being newly appointed, but they all fall away when he closes his eyes at night. Then, a man with moonlit hair and mercury eyes crawls into bed with him. The moment he wakes it's to a painful arousal no one can satisfy. When Merek's wolf catches Jace's scent he knows he's found his mate, and he soon learns their nocturnal meetings were mere foreplay. The joy of this discovery is shadowed by the trouble that stalks Jace. Merek's mate is embroiled in a battle between two ancient packs, a war Merek must now fight. If he fails he could lose Jace forever.
